Annual Homeless Assessment Report Draft

The Annual Homeless Assessment Report (AHAR) Draft was submitted on October 31. This report is a national aggregation of all the CoCs data. The report is provided to congress to inform decisions concerning homeless service future budgets. The AHAR is a voluntary report and inclusion is considered an indicator a CoC has quality data.

The report is divided into 12 categories representing project types. The TCHC HMIS office speculates 8 out of 12 of TX-601's categories will be accepted in 2017. This would be the same as 2016. The final AHAR report is due in December.

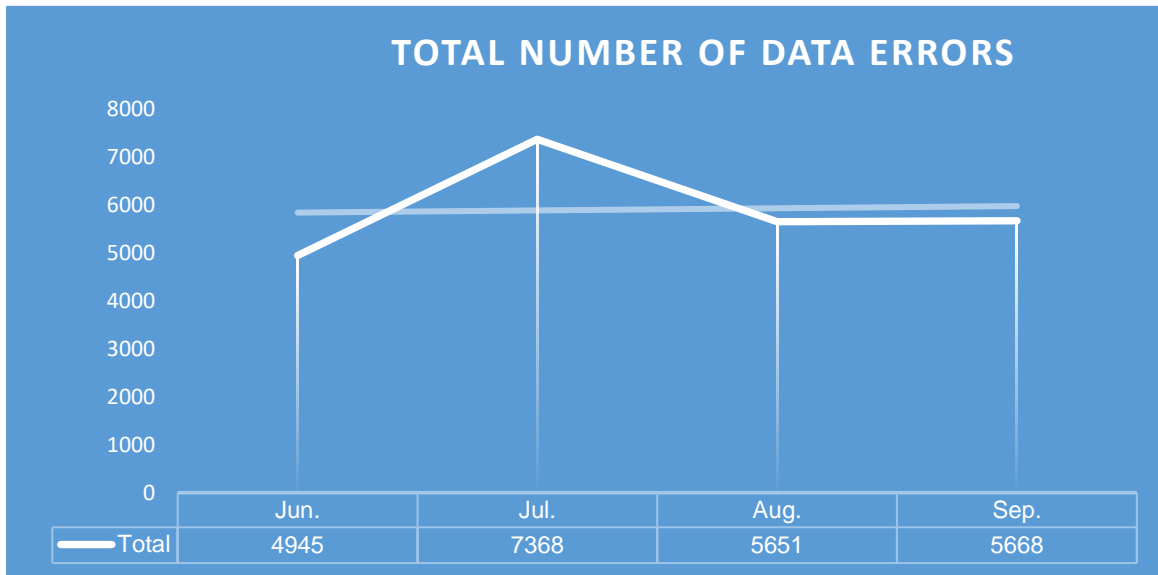

Standardization of Custom Report Request

The HMIS committee vetted a process where CoC agencies may make custom report requests from the TCHC HMIS office. The HMIS office hopes to fulfill these requests within a 72-hour period. Part of the request process will be determining whether a standard report already available to end-users would meet the need. In such, a Custom Report Requests will only be fulfilled where standard reports are insufficient.
